

Used Blow molding machine Kautex KEB 2-11 S50

Extruder S 50/18D

Drive unit 15 KW
Heating 220 / 380 V 50Hz
Heating zones 9

Clamping unit

Horizontal stroke 170 mm
Vertical stroke 30 mm
Mould open / close hydraulic
Space between open mould 120 mm
Mould up / down hydraulic
Injection pneumatic
Clamping force ca. 50 KN

Max mould dimensions

W= 200 Th= 2 x 100 mm L= 600 mm

Production options

1- line, 2- line center to center max. 70 mm

Max item dimensions

Diameter/ thickness 100 mm
Height 550 mm
Width 100 mm
Volume 2 litres

Machine dimensions

L x W x H 4200 x 1200 x 2800 mm
Weight ca. 3.300 kg

SPS Siemens S 7-200

Cutting knife

Wallthickness

Pneumatic / Moog 25 Punkte Programmer
available

Parison head

WP66 1- line, max die-diameter 66 mm

Year of construction 1978

Available Options: Cutting in mould, needle
injection.
