

Used Blow molding machine Kautex KB 25 (KB50)

Working hours since general overhaul ca. 2000 h

Max clamping force 410 Kn
Platens dimensions

width 700 mm height 900 mm
Minimum mold thickness 2 x 320 mm

Min- max opening 600 - 1300 mm
Extruder l/d 100mm 25x D
Extruder drive 81 KW DC

Head Fifo Krupp Kautex 5 Ltr Accumulator

Wallthickness control Moog TMC

Artikle take ou

Options

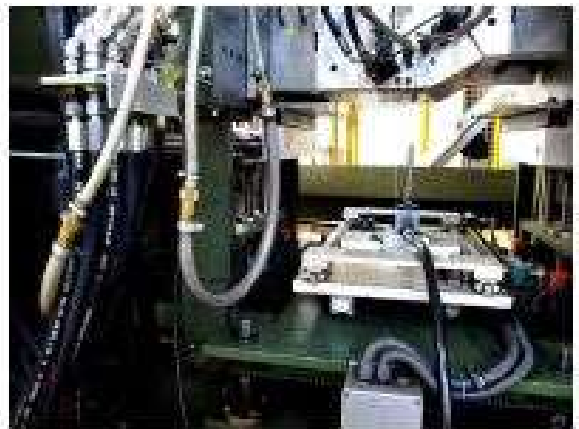

Blowing trough the head
Blowing circle 2x prop. Blowing and venting
Parison pinching device
2 x reserve for more heads

Hydraulic functions:

Blow pin movment 2x (+ 1x proportional)
Spreading movment 1 x

Accu head ejection prop.
WDS MOOG
Hydraulic cutting in the mold 2x

Presentation in progress possible.
